

Arizona SB1070

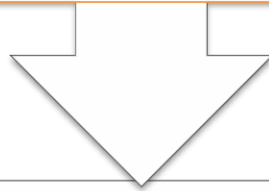

What's blocked, what's not, and what's next in Arizona

What's blocked

The ability for police to arrest and detain suspected undocumented immigrants without a warrant

The ban on day laborers ability to solicit or perform work

The requirement for immigrants to carry federal immigration documents at all times

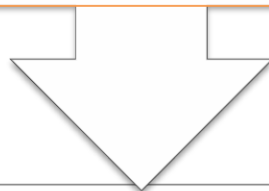

What's not

It is now a crime for state officials to interfere or not enforce federal immigration law

It is now a crime to harbor undocumented immigrants

It is now a crime to give undocumented immigrants rides in cars, which could lead to cars being impounded

What's next

We must continue to keep the pressure on to make this temporary victory a permanent one

We must stop other states from developing SB1070 copycat laws

We must continue to build pressure for Comprehensive Immigration Reform
