

ROP's Immigration Fairness Network (IFN)

We support justice for working people and human rights in a global economy. Currently we see immigrants as the frontline of assaults on workers' rights and civil liberties. In a time of war abroad, the war at home targets our civil liberties, divides communities in the name of "security," and has given rise to a new wave of anti-immigrant backlash. We are pushing back with our vision of human dignity and liberty for all. We are taking action for economic justice in rural and small town Oregon with a logical focus on immigrant fairness as the predictable first rung. Join us!

ROP will:

- Keep you updated as part of an inside loop on developments in legislation from the federal, state, and local level
- Inform you of local anti-immigrant organizing when we hear about it from our partners on the ground and nationally
- Connect you with opportunities to work locally and statewide with immigrant community leaders

Members of the IFN will:

- Pass on the word about action alerts to their local community
- Send emails, make phone calls, and write letters to their representatives or local papers as they are able
- Share information about local activities that support the immigrant community as well as any anti-immigrant activities
- Provide monitoring or peacekeeping support when called upon to counter anti-immigrant activities or ICE raids

Resources from ROP:

- IFN Email List – receive timely updates and calls to action
- **Rapid Response Team** support and training – get yours going now!
- **Movie Nights** – sign up for films and discussion questions
